Many patients are referred to the office by friends, family, or other doctors. Who or what made you decide to visit us today?

_____

Name of Insured (person who maintains your insurance benefit):_____ Circle: MALE / FEMALE

Insured Date of Birth: _____/_____/_____Insured Employer: _____

Science tells us your spine should be cared for regularly. How often do you get a chiropractic adjustment?

FREQUENTLY ONLY WHEN HURT 1 X A WEEK NEVER

When was your last spinal examination including x-rays? Date: _____ NEVER

Name of your most recent Chiropractor_____

Do you know if you have a spinal curvature, spinal arthritis, or inherited spinal problem? YES NO

Over time spinal misalignments will cause arthritis and degeneration which results in grinding or cracking to be heard when you move your neck or back. Do you hear these sounds when you move your head or neck? YES NO

If your spine is out of alignment for a long time it can make you feel like you need to twist, stretch, crack or pop your back or neck. Are you forcibly doing this to your neck or back? YES NO

Poor posture leads to poor health and early death. Please rate your posture? POOR FAIR GOOD EXCELLENT

Spinal health is vitally important to ensure a healthy pregnancy. Is there a chance you are pregnant? YES NO

Improper sleeping positions can cause spinal damage, what sleeping position do you sleep in?
BACK STOMACH RIGHT SIDE LEFT SIDE

Please list any surgeries you've had:

Type of Surgery	Date

Is this a current work or auto related accident? YES NO

Are you currently represented by an attorney? YES NO

Patient name:_____ Date:_____

Previous Injury or trauma (Ie. Auto Accident, major slips & falls) _____

_____

Have you ever broken any bones? Which? _____

Any allergies: _____

Prescription medications can cause various side effects that hide the severity of health problems and hinder the body's ability to heal. Please indicate below the prescription medications you are currently taking? (use back if necessary):

Name of Medication/including OTC	Dose/Frequency	Reason for Taking

Please list any vitamins/supplements you take:

Vitamin/Supplement	Dose/Frequency	Reason for Taking

COVID Vaccines:

How many COVID-19 vaccination/boosters have you received:_____ What was the date of the last booster:_____

Did you have any reaction to the COVID-19 vaccination/boosters: (please circle all that apply)

Fever Headache Clotting Cardiac Issues Other:_____

Do you have a family history of? (Please indicate all that apply)

□ Cancer □ Strokes/TIA's □ Headaches □ Heart disease □ Neurological diseases □ Adopted/Unknown □ Cardiac disease below age 40

□ Psychiatric disease □ Diabetes □ Other _____ □ None of the above

Deaths in immediate family:

Cause of parents' or siblings' death Age at death

_____

_____

_____

_____

Patient name:_____ Date:_____

Do you smoke cigarettes? NO YES how many per day _____ Per week_____ for how many years_____

Do you use marijuana? NO YES

Do you use non prescription drug? NO YES if yes what kind:_____how often:_____

What is your caffeine intake (please circle)

NO caffeine 1- 8 oz. cup/day 2-4 8 ox. Cups/day 5 or more 8 oz. cups/day

What is your alcohol intake (please circle)

NO Alcohol social drinker light drinker moderate drinker heavy drinker struggles w/alcohol

Tell us about your work habits (please circle all that apply)

Full-time part-time Retired Disabled unemployed

0-20 hours 20-40 hours 40-50 hours 50-60 hours 60-70 hours over 70 hours

Heavy labor moderate labor light labor

Telephone computer mostly standing mostly sitting mostly walking

Stressful relaxed enjoyable difficult

Tell us about your stress: (please circle all that apply)

Daily Weekly Monthly occasionally constantly

Level of stress: 1 2 3 4 5 6 7 8 9 10

Type of stress: work home emotional physical chemical

Tell us about the kinds of exercise that participate in: (please circle all that apply)

Almost nothing	weight training	strength training w/a trainer	physical therapy	walking running
Cycling	hiking	climbing	stretching	yoga
Pilates	kickboxing	mountain climbing	skiing	snowboarding
Baseball	basketball	football	soccer	tennis
Racquetball	Lacrosse	Gym machines	bowling	crossfit
Martial Arts/MMA	volleyball	golf	fishing	marathon training
Boating	Marching band	body building	snow mobiling	swimming

Review of Systems

Have you had any of the following **pulmonary (lung-related)** issues?
□ Asthma/difficulty breathing □ COPD □ Emphysema □ Other _____□ None of the above

Have you had any of the following **cardiovascular (heart-related)** issues or procedures?
□ Heart surgeries □ Congestive heart failure □ Murmurs or valvular disease □ Heart attacks/MIs □ Heart disease/problems
□ Hypertension □ Pacemaker □ Angina/chest pain □ Irregular heartbeat □ Other _____ □ None of the above

Patient name:_____ Date:_____

Have you had any of the following **neurological (nerve-related)** issues?

□ Visual changes/loss of vision □ One-sided weakness of face or body □ History of seizures □ One-sided decreased feeling in the face or body □ Headaches □ Memory loss □ Tremors □ Vertigo □ Loss of sense of smell
□ Strokes/TIAs □ Other _____ □ None of the above

Have you had any of the following **endocrine (glandular/hormonal)** related issues or procedures?
□ Thyroid disease □ Hormone replacement therapy □ Injectable steroid replacements □ Diabetes
□ Other _____ □ None of the above

Have you had any of the following **renal (kidney-related)** issues or procedures?
□ Renal calculi/stones □ Hematuria (blood in the urine) □ Incontinence (can't control) □ Bladder Infections
□ Difficulty urinating □ Kidney disease □ Dialysis □ Other _____ □ None of the above

Have you had any of the following **gastroenterological (stomach-related)** issues?
□ Nausea □ Difficulty swallowing □ Ulcerative disease □ Frequent abdominal pain □ Hiatal hernia □ Constipation
□ Pancreatic disease □ Irritable bowel/colitis □ Hepatitis or liver disease □ Bloody or black tarry stools
□ Vomiting blood □ Bowel incontinence □ Gastroesophageal reflux/heartburn □ Other _____ □ None of the above

Have you had any of the following **hematological (blood-related)** issues?
□ Anemia □ Regular anti-inflammatory use (Motrin/Ibuprofen/Naproxen/Naprosyn/Aleve) □ HIV positive
□ Abnormal bleeding/bruising □ Sickle-cell anemia □ Enlarged lymph nodes □ Hemophilia
□ Hypercoagulation or deep venous thrombosis/history of blood clots □ Anticoagulant therapy □ Regular aspirin use
□ Other _____ □ None of the above

Have you had any of the following **dermatological (skin-related)** issues?
□ Significant burns □ Significant rashes □ Skin grafts □ Psoriatic disorders □ Other _____ □ None of the above

Have you had any of the following **musculoskeletal (bone/muscle-related)** issues?
□ Rheumatoid arthritis □ Gout □ Osteoarthritis □ Broken bones □ Spinal fracture □ Spinal surgery □ Joint surgery
□ Arthritis (unknown type) □ Scoliosis □ Metal implants □ Other _____ □ None of the above

Have you had any of the following **psychological** issues?
□ Psychiatric diagnosis □ Depression □ Suicidal ideations □ Bipolar disorder □ Homicidal ideations □ Schizophrenia
□ Psychiatric hospitalizations □ Other _____ □ None of the above

Is there anything else in your past medical history that you feel is important to your care here? _____

Patient name:_____ Date:_____

Please indicate the symptoms that brought you in today – Start with the issue of greatest significance --

Problem 1 _____

- On a scale from 0-10, with 10 being the worst, please circle the number that best describes the symptom most of the time: 1 2 3 4 5 6 7 8 9 10

- What percentage of the time you are awake do you experience the above symptom at the above intensity:
  5 10 15 20 25 30 35 40 45 50 55 60 65 70 75 80 85 90 95 100

- Did the symptom begin suddenly or gradually? (circle one)
- When did the symptom begin? _____
  - How did the symptom begin? _____

- What makes the symptom worse? (circle all that apply):
  - nothing, any movement, bending neck forward, bending neck backward, tilting head to left, tilting head to right, turning head to left, turning head to right, bending forward at waist, bending backward at waist, tilting left at waist, tilting right at waist, twisting left at waist, twisting right at waist, driving, standing, walking, running, lifting, sitting, getting up from seated position, chewing, changing positions, lying down, reading, working, exercising, laying on side in bed, other (please describe):
    _____

- What makes the symptom better? (circle all that apply):
  - nothing, resting, ice, heat, stretching, exercise, walking, pain medication, muscle relaxers, chiropractic adjustments, massage, other (please describe): _____

- Describe the quality of the symptom (circle all that apply):
  - Sharp, dull, achy, burning, throbbing, piercing, stabbing, deep, nagging, shooting, stinging
    Other (please describe): _____

- Does the symptom radiate to another part of your body (circle one): yes no
  - If yes, where does the symptom radiate? _____

- Is the symptom worse at certain times of the day or night? (please circle)
  - No difference Morning Afternoon Evening Night Other _____

- Have you received treatment for this condition and episode prior to today's visit?
  - No
  - Anti-inflammatory meds
  - Pain medication
  - Muscle relaxers
  - Trigger point injections
  - Cortisone injections
  - Surgery
  - Massage
  - Physical Therapy
  - Chiropractic
  - Other _____

Patient name:_____ Date:_____

Please indicate the symptoms that brought you in today: --Secondary complaint

ADDITIONAL CONCERN #2 _____

(IF YOU DO NOT HAVE ANY ADDITIONAL CONCERNS, PLEASE LEAVE THIS PAGE BLANK)

- On a scale from 0-10, with 10 being the worst, please circle the number that best describes the symptom most of the time: 1 2 3 4 5 6 7 8 9 10

Putting shoes on **is affected because of my:** headache - neck/shoulder - mid back - low back – sacrum – pelvis - arms and legs

Thank you for the opportunity to better serve you.

- **We invite you to discuss with us any questions regarding our services. The best health services are based on a friendly, mutual understanding between provider and practice member.**
- **Our policy requires payment in full for all services rendered at the time of visit unless other arrangements have been made with the business manager. If account is not paid within 90 days of the date of service and no financial arrangements have been made, you will be responsible for legal fees, collection agency fees, and any other expenses incurred in collecting your account, there will be a $5.00 late charge or a 1.5% per month late fee whichever is greater.**
- **We will make every attempt to get your insurance to approve your care. We will keep you up to date on the status of your coverage. Often it is difficult to get your insurance to acknowledge the practice member's complete health care needs over their own financial concerns. However, we will not compromise the quality of the health care we provide. Our responsibility is to you, our practice member, first and foremost.**
- **The thermal subluxation scan is not reimbursed by your insurance carrier. The $35.00 charge is the patient's responsibility. There will be a $50.00 charge in addition to your normal co-pay for all emergency visits.**
- **I consent to event photos taken in the office being used in the office, on Family Chiropractic's website and social medial ie. Facebook, Instagram.**
- **I authorize the staff to perform any necessary services needed during diagnosis and treatment. I also authorize the provider and or managed care organization to release any information required to process any insurance claims.**
- **I hereby authorize assignment of my insurance rights and benefits directly to the provider for services rendered. I fully understand I am solely responsible for any balance not paid by my insurance company.**
- **Any balance that is left unpaid by your insurance company is your sole responsibility.**

Informed Consent for Chiropractic Care

We encourage and support a **shared decision-making process** between us regarding your health needs. As a part of that process, you have a right to be informed about the condition of your health and the recommended care and treatment to be provided to you so that you can make the decision whether or not to undergo such care with full knowledge of the known risks. This information is intended to make you better informed in order that you can knowledgably give or withhold your consent.

Chiropractic is based on the science which concerns itself with the relationship between structures (primarily the spine) and function (primarily of the nervous system) and how this relationship can affect the restoration and preservation of health.

Adjustments are made by chiropractors in order to correct or reduce spinal and extremity joint subluxations. **Vertebral subluxation** is a disturbance to the nervous system and is a condition where one or more vertebra in the spine is misaligned and/or does not move properly causing interference and/or irritation to the nervous system. The primary goal in chiropractic care is the removal and/or reduction of nerve interference caused by vertebral subluxation.

A chiropractic examination will be performed which may include spinal and physical examination, orthopedic and neurological testing, palpation, specialized instrumentation, radiological examination (x-rays), and laboratory testing.

The chiropractic adjustment is the application of a precise movement and/or force into the spine in order to reduce or correct vertebral subluxation(s). There are a number of different methods or techniques by which the chiropractic adjustment is delivered but are typically delivered by hand. Some may require the use of an instrument or other specialized equipment. In addition, physiotherapy or rehabilitative procedures may be included in the management protocol. Among other things, chiropractic care may reduce pain, increase mobility and improve quality of life.

In addition to the benefits of chiropractic care and treatment, one should also be aware of the existence of some risks and limitations of this care. The risks are seldom high enough to contraindicate care and all health care procedures have some risk associated with them.

Risks associated with some chiropractic treatment may include soreness, musculoskeletal sprain/strain, and fracture. Risks associated with physiotherapy may include the preceding as well as allergic reaction and muscle and/or joint pain. In addition there are reported cases of stroke associated with visits to medical doctors and chiropractors. Research and scientific evidence does not establish a cause and effect relationship between chiropractic treatment and the occurrence of stroke; rather, recent studies indicate that patients may be consulting medical doctors and chiropractors when they are in the early stages of a stroke. In essence, there is a stroke already in process. However, you are being informed of this reported association because a stroke may cause serious neurological impairment.

I have been informed of the nature and purpose of chiropractic care, the possible consequences of care, and the risks of care, including the risk that the care may not accomplish the desired objective. Reasonable alternative treatments have been explained, including the risks, consequences and probable effectiveness of each. I have been advised of the possible consequences if no care is received. I acknowledge that no guarantees have been made to me concerning the results of the care and treatment.

I HAVE READ THE ABOVE PARAGRAPH. I UNDERSTAND THE INFORMATION PROVIDED. ALL QUESTIONS I HAVE ABOUT THIS INFORMATION HAVE BEEN ANSWERED TO MY SATISFACTION. HAVING THIS KNOWLEDGE, I KNOWINGLY AUTHORIZE Dr. Steven Klink & Family Chiropractic TO PROCEED WITH CHIROPRACTIC CARE AND TREATMENT.
